

A DEVELOPER'S DREAM

DEVELOPER:

Picture a walkway from Saint Augustine's,
A tink-a-ling fountain, blossoming trees,
What have we here? Change is in the air,
Step into the future in the shape of a Square.

DEVELOPER AND PIGS:

Botolph's historic, a nice enough street,
But everyone knows the future's concrete,
Some call it brutal, some say it's harsh,
Do you want to move forward, or live in the past?

DEVELOPER AND PIGS:

*Forget your troubles, your future is nigh
In Anglia Square, you'll all live high
Float over Stump Cross, and park in the sky
The buildings have wings, and the cars can fly*

PIGS' SOLOS:

Knock down the old and make way for the new,
Your heritage update is long overdue,
Your old-fashioned buildings will have to come down,
Your old shops removed for the good of the town.

(BRIDGE) DEVELOPER AND PIGS:

Come on North Norwich, what do you say?
For cutting edge style it's a small price to pay,
Sovereign House, design off-the-chart,
The Odeon cinema, state-of-the-art,
A new multi-storey, you park on a shelf,
Then pop into Sainsbury's, just serve yourself!

(CHORUS) ALL:

*Forget your troubles, our future is nigh
In Anglia Square, we'll all live high
Float over Stump Cross, and park in the sky
The buildings have wings and the cars can fly*

DEVELOPER AND PIGS:

When they flood in from all over the county,
To your hotels and restaurants, shops full of bounty,
You'll cry 'We love it, just send us the bill'
When this one is finished, we'll start on Elm Hill.

(CHORUS) ALL - BUILDING:

*Forget your troubles, our future is nigh
In Anglia Square, we'll all live high
Float over Stump Cross, and park in the sky
The buildings have wings and the cars can fly*
